

Community Engagement Division

Date

February 7, 2020

A street reconstruction project is coming to your neighborhood this year on Hall Street from Kalamazoo Avenue to Sylvan Avenue. You are receiving this postcard because you are within 350 feet of the project. In preparation for this project, the majority of trees located between the sidewalk and curb will, unfortunately, be removed. Trees marked with a white X will be removed, those with a white dot will be trimmed. The project will plant approximately 90 new trees, more than double the amount of trees that will be removed.

Work will begin the week of February 17, 2020.
